

2nd Annual ESA Women Empowerment (WE) Summit and WE Awards

*“Women leading positive change -
you know it makes sense!”*

September 13th - 16th 2014

“Women creating positive change - you know it makes sense!”

The overarching aim of this programme is for participants to gain increased awareness of their own core strengths and to learn techniques for breaking down limiting beliefs. This will enable them to feel empowered to create the changes they want in their lives. This 2.5 days residential, holistic learning retreat is for women who want to set up a business, or already running a business, managing a busy family or women who want to develop their skills and competences to create positive change in the world.

Men who want to understand and support women empowerment are also very welcome to attend.

Day 1: Starting the inside journey

Day 2: Connections that make sense

Day 3: Transition to positive change

2nd Annual ESA Women Empowerment (WE) Summit and WE Awards

Saturday 13th Sept -Tuesday 16th Sept 2014

You are invited to join a selective and intimate group (only 20) of people just like you, to become clear of your 'signature characteristics' and core strengths as an "Empowered Woman".

You will learn new techniques and be given new tools to help you harness your talents and personality to drive change in your life at any level you want, be it in business, community or family.

Learning and development methods at ESA are fun, interactive and experiential. This includes co-coaching, story-telling and peer group learning activities.

The high calibre programme learning materials have been developed and delivered internationally, including in Cambridge University, Cranfield University and in large successful organisations in UK.

ESA Crete has been specially designed with overlapping outdoor and indoor spaces to enhance the learning and personal development process.

Translators and facilitators will be there to help guide you through this unique and valuable learning experience.

Lecturers, facilitators and celebrity presenters from around the world will contribute to a powerful personal development and personal organisation programme. Presenters include the famous, award winning, gender activist and author, African royalty, Muzvare Betty Makoni from Zimbabwe and her fellow activist and TV broadcaster Princess Deun Adedoyin-Solarin of Nigeria.

Comments from 2013 Women Empowerment Programme:

"Goddesses: thank you for giving me a safe haven to re-invent my sparkle" - "We are leaving more powerful!" - "I came by chance! I have remembered who I am and what I have to offer". - "Thank you for everything! Beings here (ESA) is always an exceptional experience".

Four key aims of this programme

1. You will develop new awareness about 'supercharging' your personal influence and your core skills for creating positive change.
2. You will learn new skills to engage people in a mutual win – win change process.
3. You will develop your 'sense-making' and 'sense-giving' abilities to positively influence people who 'block' your path to empowerment.
4. You will learn techniques to protect yourself from bullies and adversaries, and gain an international support network of people who will continue to support you on your empowerment journey.

You will manage your own learning experience through a personal learning journal and workbook. You will set your own objectives and at the end of the programme you will have a personal action plan that is tailor made for you.

This retreat has been specially designed so that participants can absorb the level of learning and development that they want/need. This may be a transformational process or more tactical learning. Participants will shape a different process to suit each person's needs.
